

MARITIME REPORTER AND ENGINEERING NEWS

JULY 2009

**Ad Close Date:
June 26th 2009**

MARINE ELECTRONICS EDITION

Marine operations depend on modern electronics to get the job done safe and efficiently. Maritime Reporter presents inland, oceangoing and offshore case-studies where marine electronics have helped us to save time, money and lives.

Place your advertising in the maritime industry's most respected, informative and largest marine publication

Eye on Ship Design

Sauli Eloranta, the new head of research and development at STX Finland, shares with Maritime Reporter his insights on future efficient design and construction.

Training & Education

With Piracy rampant and marine mishaps an ever-present concern, Maritime Reporter examines the technology and techniques designed to keep mariners safe and efficient.

Diesel Engine Technical Guide

Maritime Reporter presents the industry's most thorough and authoritative guide to the world of marine diesel power.

Country Focus: Canada
